## OUR STORY

Sprada EV Solution Auto Care Pvt. Ltd., a start-up to ignite the e-mobility revolution in India, was formed in 2015. Our founders, Santosh Kumar and Om Parkash, had humble beginnings but ambitious dreams. What started as a dream to make electric vehicles within the reach of every indian citizen has now transformed into one of India's leading EV start-ups. Our visionary approach to accelerating the national drive to EVS is founded on consistent hard work, the adoption of cutting-edge technologies, and strong commitments to practice sustainable innovation.

### WHAT DRIVES US?

#### Innovation

We thrive on embracing emerging technologies to innovate, develop, and produce best-in-industry EVs, built especially for India.

#### Creativity

We are enablers of creativity. Be it a business challenge or technical issue, we find lasting solutions through creative thinking.

#### Sustainability

We are resolute promoters of sustainable innovation. Our planet needs sincere efforts to mitigate climate change, and we are here to make it happen.
